Are you ready to revolutionize your approach to problem-solving and unleash your innovative spirit?

Don't miss out on our exclusive **3-week Virtual Internship Program** on

Artificial Intelligence
starting from 15th July to 5th August 2024!!

About IBM SkillsBuild Academic Internship Program

The IBM Skills Build Academic Internship Program is an IBM CSR Initiative aimed at enhancing students' technological and digital skills to prepare them for the workforce. Through this program, participants can seamlessly integrate into job opportunities while gaining valuable knowledge in **Artificial Intelligence domain**. This initiative provides a formal platform for students to acquire vital skills and expand their employment prospects in a professional setting.

Key Benefits :

- Opportunity to gain internships and full time job opportunities.
- Acquire programming, domain-specific skills, and software expertise.
- Benefit from online learning and weekly sessions with industry experts.
- Expand your professional network and earn globally recognized SkillsBuild badges.
- Convert your learning into demonstrable projects for potential employers.
- Transform your learning into a tangible showcase for future employers.

Eligibility:

- Students must participate in the internship program as teams of 4-9 members.
- One team can participate in one internship only.
- Students must be enrolled in any college affiliated with DTE Rajasthan.
- This opportunity is especially beneficial for students interested in artificial intelligence domains.

Upon completion of the program, attendees will be awarded certificates and provided with job placement assistance through IBM and its network partners. The top-performing teams will also be granted exclusive prizes and the opportunity to participate in IBM's national annual showcase event, taking place in October at Hotel Pullman, New Delhi Aerocity.

Artificial Intelligence

An artificial intelligence (AI) internship offers hands-on experience in developing algorithms, creating predictive models and working with large datasets. Interns apply theoretical knowledge to real-world problems under the guidance of experienced professionals, gaining exposure to cutting-edge technologies. This experience enhances technical skills, fosters teamwork and creativity and provides a competitive edge in the job market, making it a crucial step for aspiring AI professionals.

Time Commitment:
4 Weeks

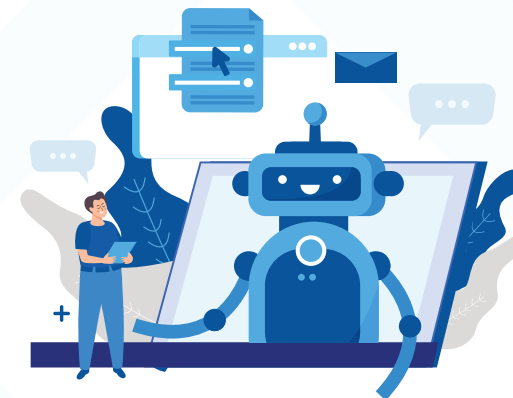

Mode of Camp:
Virtual Mode

Language:
English

Dates:
July 15th 2024 to
August 05th 2024

Sr.No.	Weeks	Weeks	Particulars	Time (51 Hours)
1.	Week 0	10 th July- 12 th July	Offer Letter Issuance and Prework	2 hours
